WASHINGTON, December 4, 1891. Sin: In my message to the first session of the

"I have suggested to the heads of the executive departments that they consider whethers record might not be kept in each bureau of all those elements that are covered by the terms "faithfulness" and 'efficiency,' and a rating made showing the relative merits of the clerks of each class, this rating to be regarded as a test

of merit in making promotions." In some of the departments this sugge has been acted upon, in part at least, and I now direct that in your department a plan be at once devised and put in operation for keeping an efficiency record of all persons within the classified service with a view to placing promotions wholly upon the

To that end the rule requiring compulsory examination has been reschaded. In my opinion, the examination for promotion of those who present themselves should be chiefly, if not wholly, upon their knowledge of the work of the bureau or department to which they belong and the record of efficiency made by them during their previous service. I think the records of efficiency, kept from day to day, should be open to the inspection of the clerks.

Very respectfully yours. The following are the opening and closing prices of the New York Stock Market, as reported by special wire to Corson and Macartney, lable & street.

Very respecially yours, BENJ. HARRISON.

SCHMELZ MIGHT BE MANAGER Possibility of the Western Bustler Havin Charge of the Nationals. Negotiations have been in progress for some

time to secure a manager for the National Base Ball Club. At one time there was an excellent prespect of obtaining John Ward from Brooklyn. He intimated his willingness to come, but the deal finally fell through, as has already been announced in THE STAR. Efforts were also made to secure Foutz from Brooklyn and Burns from Chi-cago, but their demands were larger than the cago, but their demands were larger than the management deemed warrantable. The latest report makes Manager Schmelz of Columbus a possible manager of the Nationals. In fact, a report from the west says that "Gus" has been "booked" for Washington and that Buckenberger, who had been promised the management, had been "sidetracked." The latter statement can be pronounced untrue. The National directory have given Buckenberger not a thought. As to Schmelz nothing definite can Henry Clews' Weekly Financial Review, issue today says: Again a week of marked duliness and of some weakness of prices on the stock exchange. And yet, along with this, there are no condi-tions that can be considered sufficient to All the improvement in the financial and political affairs of Europe it would seem ought to be attended with some response in the markets; and in the foreign markets there thought. As to Schmelz nothing definite can be said just now. There is a possibility of his coming here. He is esteemed highly by the local directory. Nothing has yet been decided. really has been a marked recovery in the prices of nearly all securities except American; but they have remained stationary, because New York has been neither active nor buoyant.

The men who were injured by the explosion at 71 Broadway were doing well this morning. C. W. Osborn, who is at the Chambers Street Hospital suffering from acompound fracture of the skull and wound of the neck, passed a restfui night and was comparatively bright and cheerful this morning. He is believed to have a fair chance of recovery.

Mr. Washington E. Conner was seen at his new office, No. 70 Broadway. He said: "I called on Mr. Sage this morning at his house and found him looking quite bright and cheerful. He will be all right again in a few days, I think. There is no truth in the rumor that any bonds were lost by either Mr. Sage or myself. What papers were scattered on the floor were picked up again and are all right. We won't lose a dollar save by the destruction of the office and furniture."

At 10 o'clock this morning Mr. Osborn, chief clerk of Russell Sage, said that arrangements had been made for temporary transaction of the business of Mr. Sage's office at Messra. Caldwell & Bunker's, brokers, on the second floor of No. 64 Broadway. Mr. Osborn had a force of young men at work overhauling a great pile of rubbish, picking out valuable papers which the explosion had scattered all over the premises. The 100 shares of C., B. and Q. stock which Mr. Sage's clerk was about handing to Clerk Robinson in exchange for \$9,000 certified check when the crash came were found at an early hour this morning, but the check had not turned up. Mr. Osborn said he was looking for a permanent office, but had not found a place. At Messrs. Caldwell & Bunker's office it was said that Mr. Sage's name had been transferred to their tape and that all inquiries should be directed there for the present. Mr. Osborn, they said, was formerly attached to that office, and they were glad to give their facilities for the use of the farm. had been made for temporary transaction of the NO ONE KNOWS BETTER THAN THOSE WHO have used Carter's Little Liver Pills what relief they have given when taken for dyspepsia, dizziness, pain in the side, constipation and disordered stomach.

I do not care to explain why I think this, but I do not care to explain why I think this, but such is the fact. The course of the administration has not been such politically as to please me always. In fact, in common with other members of the national committee, I often felt aggrieved, but it has been the ablest since Lincoln, and this, combined with other circumstances and the togic of the situation, will make Harrison the next nominee. I think it will be accepted as a fact by all within the next sixty days."
